

## QUEST TEST

The rules are VERY simple:

1. Take a 25-30 question QUEST quiz over each chapter. Usually 5 chapters long.
2. You will be broken into groups of 4 or 5 quest-mates (team).
3. Your individual Quest score will count as a quiz grade that is weighted 3 times.
4. The average of your TEAM will be kept by me over the course of the Quest.
5. At the end of the last quest, your quest average will count as a TEST grade.
6. BUT, if your team has the highest average, everyone (that has a passing average) in that team will get a 100 on the test.
7. The usual FRQ curve purchase will still apply. Thus, the highest grade one can achieve is a 109.
8. Any morning, after the Quest, students may choose to request a Re-Quest Test. This score can NOT lower the student's grade. I will put in the higher of the two scores plus the FRQ points. Re-Questing can NOT lower your grade, and you can still make up to a 109.
